

Five-S Group thrives with Converge

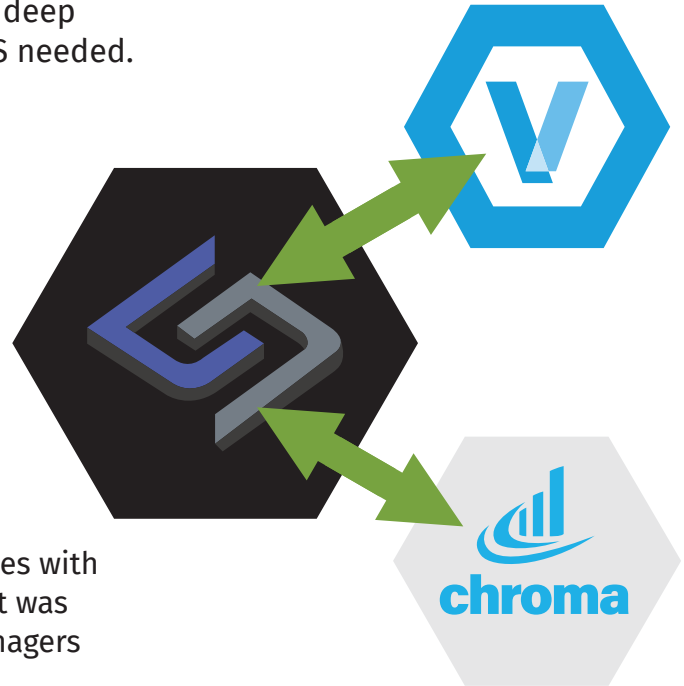

The **Five-S Group** had outgrown QuickBooks and found Viewpoint ProContractor's lack of Project Management functionality very frustrating. Five-S wanted timeliness and improved accuracy in their data capture.

Converge had the industry knowledge and deep experience with **Viewpoint Vista** that Five-S needed.

*"The **Converge** team is very knowledgeable. They are also patient and know that changing systems and processes is hard for people. **Converge** has a great, step-by-step process."*

Danielle Hosch

Chief Administrative Officer, Five-S Group

BEFORE CONVERGE: The Five-S team had issues with data input, timeliness, errors and accuracy. It was very challenging to bring on new Project Managers and have them learn the old system.

AFTER CONVERGE: Five-S expertly implemented an industry-leading solution in **Viewpoint Vista** and gained massive efficiencies.

Converge layered in their **Chroma** platform on top of the ERP. This provided a mobile time-tracking solution with geo-fencing that ensured Five-S captured timely and accurate data.

BOTTOM LINE:

"You can't put a price tag on peace of mind. We're able to see live, actual numbers that are accurate. Previously it was chaos trying to get reliable reports and data. Now we don't have to wait on others to pull numbers and get it right."

Danielle Hosch Chief Administrative Officer, Five-S Group

About Five-S Group

Five-S Group is an industrial site – civil construction firm.

Five-S Group combines our ability to perform site construction services, provide construction materials to projects, and transport or handle materials.

Five-S Group delivers materials sourced by us or our clients via multiple modes of transportation with highly reputable partnerships, our own equipment and our highly talented team members.
